Assembly Procedure

1. Insert four rubber feet into case bottom.
2. Insert eight M3 captive nuts into the two assembly profiles.
3. Secure the two assembly profiles to the case bottom using four of the M3 x 6 screws (fastening to the captive nuts).
4. Secure the case top to the assembly profile as per step 3.
5. Secure the front panels using the remaining M3 x 6 screws (fastening to the front and rear of the assembly profiles).

The case is now ready for use.
